

FIELD USAGE FOR 2008 SEASON

It is the intentions of the Board of Gulf Coast Youth Soccer Club to allow teams to use the fields at the Soccer Complex. However, these fields do required maintaining and help is needed for this maintenance. In an effort to obtain volunteers for these needs, we are offering the use of the fields in return. The following rules will apply to any team wanting to use the fields.

A minimum of (3) three parents per team must attend at least one scheduled workday. (This does not include the coach or assistant coach). Teams may need to be moved to a field other than the one they were scheduled to use for mowing purposes, painting the field, or due to rain problems. Fields may be closed at anytime due to inclement weather. Fields are not for regular weekly practices; you will need to have a regular practice field. Scheduling of fields will only be granted one day per week. Fields will be scheduled as half fields with two teams per field. Fields will be scheduled for one and a half hour practices. Times will be 5:00 to 6:30 or 6:30 to 8:00 on weeknights. You can only schedule a field one week in advance. You cannot schedule for the whole season as this allows all teams an opportunity to use the fields. Any team that leaves trash on or adjacent to the fields will not be allowed to practice on the fields for two weeks.

Field workdays are scheduled for three (3) Saturdays in August:

August 9, 16, and 23. Make sure your parents know about the workdays to help represent your team.
